- ~ Working with Learning Management System Themes

Workshop Projects

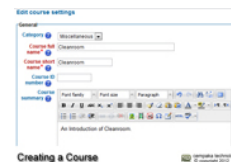

Trainer : Enrol Users to a course

Trainer can enrol users to become learner of a course.

Training Manager: Create a course

Training Manager can create a single topic, multiple topics courses.

Training Manager: Add resources to a course

After creating a course, training manager can add different resources like PowerPoint, PDF, Word documents, Youtube Videos, sound files to the course.

Training Manager: Add Activities to a Course

In addition to resources, activities such as quiz (for assessment), certificate (reward the learner), Assignment (learner to submit proposal, artwork, photos to proof of his/her work) etc, can be added to the course.

Training Manager: Mass-enrol the user to a course

If the enrolment job is very frequent, training manager can set up Cohort Sync to mass enrol users according to organization units. For example, a new staff just join the department, the cohort syn will automatically enrol the staff to the courses according based on Cohort Sync.

Training Manager: Restrict Access

For a course with multiple activities, you can set the Restrict Access. This allows prerequisite of an activities. For example, the learner must pass the Basic Level of Ms. Word, before the learner can take the advanced level of Ms. Word.

Training Manager: Activity Completion

You can set the activity completion criteria. The activity is considered completed provided the learner has viewed, or has pass certain marks of the activity.

Activity Completion

Learner won't be able to learn the next activity (see gray out) if the prerequisite is not fulfilled. The activity is not considered completed as the learner is yet to pass the mark of the activity.

Activity Completion - Set Complete Flag to Activity
